Benefits for Business

Increasingly, tech, medical, manufacturing and other established companies and entrepreneurs are looking for research, intellectual property and technology licensing opportunities to plan and produce products or offer services. OIEx provides access to faculty expertise, grants and patents in these areas:

- Biomedical sciences
- Natural and physical sciences
- Engineering
- Technology
- Mathematics

OIEx also offers information about advanced equipment and services that companies may not own or may lack access to. University faculty can steer businesses to a rich source of employees through student internships and capstone research projects.

The Ohio Innovation Exchange (OIEx) provides a powerful, centralized web portal that makes it easier to find research expertise and resources from Ohio universities. Search our database of STEM experts, equipment, instruments, services and patents to find resources that can help you solve challenges and capitalize on opportunities.

If you would like to learn more about the resources Ohio's universities have to offer, visit our website at www.ohioinformationexchange.org. Follow us on Twitter, LinkedIn and Facebook for daily information on research and innovation at our partner universities.
Connect and Collaborate

OIEx provides an efficient way to access information that can benefit your business or industry organization, by:

- Connecting industry and business with faculty research expertise (access to publications, grants, marketable innovations, social media content), through robust searching at no charge
- Providing direct access to research faculty through email or through a team of university liaisons that provides guidance and triage of inquiries
- Enhancing access to available research equipment/instrumentation and services from campuses and laboratories around the state
- Fostering research partnerships; connecting intellectual property and technology licensing opportunities
- Providing a network of faculty researchers’ collaborators across featured universities in Ohio
- Highlighting news about research and innovation at our partner universities and the state of Ohio

Ohio universities are at the forefront of research in science, technology, engineering and medicine.

OIEx Features

Six partner universities
- Case Western Reserve University
- Cleveland State University
- Ohio University
- The Ohio State University
- University of Akron
- University of Cincinnati

More than 10,000 STEM-focused faculty

Over 1,000 pieces of supporting research equipment and services

More than 900 university-based patents
