

## OIEX Researcher Curation and Auto Claiming Example

The purpose of this document is to provide an example on how a researcher can claim or modify their publications. OIEX has partnered with Symplectic Elements to search databases and find publications which may belong to a researcher, compiling them in a "Pending" list. The researcher can click on "Claim as mine" or "Reject (Not Mine)."

Goto <http://profiles.ohioinnovationexchange.org>.

From the "Institution Selection Form" engage the drop down dialog box "Please select your institution."
